// The idea

Recanati Piano Campus is conceived as a meeting of talents, an opportunity for exchange and sharing.

Each student will have the opportunity to work with two teachers within the same course, and informal concerts are scheduled every day at the end of the lessons. Students will be able to benefit from the advice of all the Professors present after each informal concert.

For the Third Edition, there is a new feature: a workshop with ELISABETTA GIORGINI, a certified teacher of the Feldenkrais Method, entitled "Facing the Piano. Listening to Harmonic Movement" which will take place on August 30 in the afternoon for all participants.

A final concert is scheduled for September 3 at the Auditorium of Centro Mondiale della Poesia "G.Leopardi" in Recanati.

//The places

The campus will take place at the Civic School of Music Beniamino Gigli in Recanati.

Founded in 1994, the school inherited the teaching activities of the "B. Gigli" Music Institute, which was already on par with State Conservatories.

Recanati is in the heart of the Marche hinterland, in the province of Macerata, just 30 minutes from Ancona.

Recanati is Leopardi.

It is a village that breathes following the rhythm of the verses of the poet of the Infinite.

It is surrounded by the green hills of the Marche region and from here silently overlooks the fascinating scenery of the Conero Riviera.

A few kilometers away is the seaside resort of Porto Recanati.

The campus also offers an opportunity for inspiration, cultural enrichment, conviviality, and contact with nature.
